

MINO-399 – Motueka River Bridge follow up

5 July 2022

The office has requested information on the cost for building another lane on the Motueka River Bridge to support earlier advice given to the office of Hon Damien O'Connor MP.

Waka Kotahi NZ Transport Agency's response:

- The construction of an additional lane on the Motueka River Bridge would require widening the existing bridge. The cost of this work would depend on a number of factors including existing structural capacity and river works for substructure strengthening, if required. This is estimated to be in the range of \$16 - \$26 million.
