

21 October 2019

Attention: State Highway HPMV and 50MAX Permit Holders

Following recent investigation works, the following sections of SH4 and SH49 have now been approved for HPMV travel (refer image below):

SH4: RP 94/19.818 - 140/0.00

SH4: RP 176/5.28 - 206/11.94

SH49 - RP 0/0.00 - 11/16.983

Vehicles with a current NZTA issued HPMV permit are now permitted to travel on these routes.

All other operators (including existing 50MAX permit holders) currently using these routes who wish to take advantage of the change in status must apply for a Full HPMV permit.

This permit addendum does not authorize the travel of Overweight Vehicles on the described routes. A vehicle specific permit is required for Overweight Vehicles.
