

- During the assessment ride I will give you directions over the radio. If you lose contact with me, pull over to the side of the road where it is safe and wait for me to catch up with you.
- Instructions for turning or stopping will be given when needed, otherwise continue to follow the road.
- You must observe all speed limits. Ride to the conditions and where it is safe, you are expected to travel within 5km/h of the posted speed limit, but not over the speed limit. This includes any temporary speed limits.
- Once we start the assessment I will calibrate our speedometers by asking you 'What speed are you travelling at?'
- Decisions such as overtaking, gap selection, positioning and speed control are yours to make at all times.
- During the ride I will also be checking your observation skills. To help me, can you please make distinct head movements when scanning or using the mirrors.
- During the ride I may also ask you to pull over and find a safe place to stop. This will allow me to update the score sheet.
- Do you have any questions?
- When you are ready you can move off.
