Specific Requirements (Ministerial expectations: Reporting, Pothole Repairs, Cost of TTM and Private share of PT Expenditure) - NLTF funding for activities during NLTP 2024-2027 period

1. **Specific Requirements:** This document sets out other requirements permitted by the existing approval terms and conditions (**General Terms**) that apply to funding from the National Land Transport Fund during the 2024-2027 National Land Transport Programme period (**Specific Requirements**).
2. **Description:** These Specific Requirements:
 - 2.1 relate to Ministerial expectations set out in the Government Policy Statement on land transport 2024/25–2033/34 (**GPS**);
 - 2.2 need to be read together with the September 2024 letter from the chief executive of NZTA to each approved organisation with the heading “2024-27 National Land Transport Programme – Final Decisions” which refers to how NZTA will apply the Ministerial expectations to approved organisations;
 - 2.3 apply to all relevant approved activities (and their associated funding approvals) carried out by an approved organisation and NZTA (for its own activities);
 - 2.4 must be complied with as a condition of receiving funding from the NLTF during the 2024-2027 NLTP period for the relevant approved activities; and
 - 2.5 apply from 1 October 2024 (although NZTA will take into account when notice of these requirements was given to a relevant organisation and when the Reporting Schedule (referred to in clause 4.2 below) first became available or included relevant reporting details).
3. **Review:** These Specific Requirements reflect that the relevant Ministerial expectations may require approved organisations and NZTA (for its own activities) to add to, or change, existing approaches and arrangements (including with third party suppliers) and that a reasonable period will be required for this to occur. NZTA intends to monitor progress during FY2024/2025 and may review (and update or add to) these Specific Requirements (and/or the associated reporting) to ensure that they remain appropriate for the relevant Ministerial expectations.
4. **Reporting:**
 - 4.1 Approved organisations and NZTA (for its own activities) must:
 - (a) provide reports relating to (and on its level of achievement against) each Specific Requirement and other Ministerial expectations, including as described in Reporting Schedule; and
 - (b) monitor, collect and retain all information (including by reference to relevant time periods) reasonably required to support the reporting required by the Reporting Schedule that relates to the Specific Requirements and other Ministerial expectations.
 - 4.2 NZTA will provide fuller detail about reporting in a separate document to be called the ‘Reporting Schedule’ (or something similar). The Reporting Schedule will be made available via NZTA’s website. The Reporting Schedule may be updated or replaced from time to time and will set out (by reference to each Specific Requirement and other Ministerial expectation) details about the following, in each case as reasonably provided for by NZTA:

- (a) the date for delivery of the first report, the frequency of that report and the relevant period it needs to cover (e.g. monthly, quarterly or annually);
- (b) the format of the report, how the report is to be delivered (e.g. which reporting tool or process) and the content of the report (e.g. expenditure and revenue; activity volume, type and location; actual performance against baseline, prior performance and target performance; and reasons for under-performance).

4.3 The frequency, format, content and delivery of reports may differ between Specific Requirements and other Ministerial expectations and may also differ across different time periods.

4.4 For convenience, the Reporting Schedule may also be used by NZTA to specify other matters on which NZTA would like approved organisations to report, including so that NZTA can meet other reporting and information requests made of it by the Minister (e.g. monthly reporting on the percentage of the sealed local road network in lane kilometres with resealed and resurfaced pavement and rehabilitated pavement).

4.5 NZTA expects that, wherever possible, existing reporting tools and processes will be used for this reporting (e.g. Programme Monitor, Transport Investment Online, end of year achievement returns and via regular reporting to and by the Road Efficiency Group, including via the Transport Insights web portal).

5. These Specific Requirements relate to the following:
