Wellington St on-ramp reopening

The reopening of the Wellington St on-ramp next Monday (8 October) will create a change in road layout near the entrance to the tunnel – so please drive with care.

Northbound drivers using this on-ramp will again merge with SH1 traffic near the entrance to the new Victoria Park Tunnel. It is important to drive with care and patience as all drivers get used to this change. Some queues and delays are likely.

A pedestrian crossing is now in place at the top of the on-ramp. Please take care and be aware of people using the crossing as you drive onto the on-ramp.

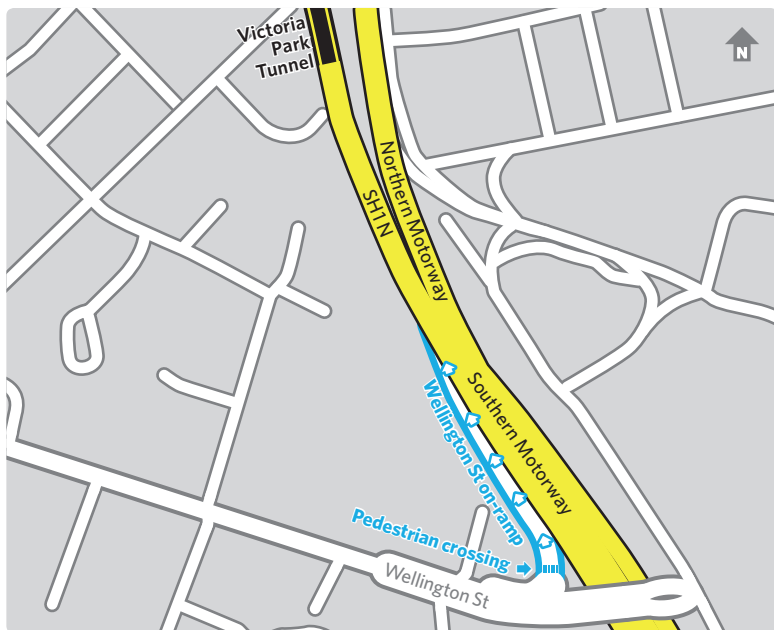

Note: There are four central city northbound on-ramps. To help avoid delays use the on-ramp closest to where you work, park or play.

Thank you for your support.
