

# New temporary traffic lights and crossing on SH2 near Bayfair

New temporary traffic lights will soon be operating on both north and southbound lanes near Bayfair roundabout.

With the underpass closing for removal, a new temporary crossing will allow pedestrians and cyclists to cross SH2 Maunganui Road safely in one single movement.

Traffic management signs will advise approaching motorists to slow down. Traffic controllers will be at each crossing point to assist users with the new layout for the first two weeks.

The temporary crossing will be in place while work on the new Bayfair roundabout, underpass and flyover is underway.

Please follow all signage and take care while adjusting to the new layout.

*The map provides an indication of how the temporary crossing will operate.*
