

State Highway 2 (SH2) closure for progress on Te Maunga interchange

SH2 between Bayfair roundabout and Te Maunga intersection is scheduled to close from:

1.00am on Saturday 15 January until
5.30am on Monday 17 January 2022.

Concrete barriers and service ducting will be installed on the SH2 bridge of the Te Maunga interchange, ahead of the interchange opening in 2022. As these elements will be installed above SH2, the closure is necessary to keep road users safe.

This is a significant closure that will impact travel times for locals and visitors. Work will take place during day and night shifts to minimise the closure's duration.

A signposted detour will apply via Girven Road, Maranui Street, Sandhurst Drive and the Sandhurst Drive/Mangatawa Interchange.

Waka Kotahi thanks road users, residents and businesses for their patience.

Throughout January, significant road works will be underway on several of Tauranga's key roads. Plan for delays, allow extra time for travel and check journeys.nzta.govt.nz

This map provides an indication of the detour routes in place.
