Some examples that could be considered when more detailed design of noise walls along SH1 is undertaken, (examples are from elsewhere on the state highway network).

- **MacKays to Peka Peka**: A sculptural undulating effect that picks up the shape of hills beyond.
- **Kirkbride Road/State Highway 20A, Auckland**: Fine detail on noise wall alongside shared path.
- **Fanshawe St on-ramp, Auckland**: Abstracted flax pattern co-designed with iwi art collective.
- **Westhaven Drive, Auckland**: Texture scaled to local road environment.
- **Southern Motorway, Christchurch**: Pattern of light and shade visually breaks up large walls.
