Regional Freshwater Plan for the Wellington Region, GWRC, 1999

Rule 9B Diversion of groundwater

The diversion of groundwater is a permitted activity, provided that it complies with the conditions specified below:

(1) There shall be no adverse effects on water supply other than for a temporary period during construction of no more than 24 hours.

- (2) There shall be no flooding of land on any neighbouring property.
- (3) There shall be no lowering of water levels in any river, lake, or wetland.
- (4) There shall be no lowering of groundwater levels on any neighbouring property.
