

KAWARAU FALLS BRIDGE PROJECT TRAFFIC MANAGEMENT TRIAL

A trial from Tuesday 12 September will see stop-go traffic management operating for longer hours around the Kawarau Falls Bridge worksite, starting from 8am and finishing at 5pm.

There may be some delays but the team will be monitoring traffic carefully and keeping queues as short as possible.

We expect these changes will be more responsive to traffic flows and reduce delays for bridge users.

The extra time will enable the construction team to complete more work on the bridge including installing new water pipes, ahead of the busy Christmas -New Year holiday period.

For more information please contact us on **0508 KAWARAU** (0508 529 2728) or visit www.nzta.govt.nz/kawarau-falls.
