MINING PERMIT 41 003
CERTIFICATE OF CHANGE OF CONDITIONS

IN THE MATTER of the

AND

IN THE MATTER of mining
permit 41 003 dated 7
December 1992 in the name
of N Z Railways Corporation

PURSUANT to section 36(1) of the Crown Minerals Act 1991, the conditions
specified in the Third Schedule to the above mentioned permit are hereby
replaced with those attached to this Certificate.

DATED at Wellington this 6th day of March, 1997

P. S. Carpenter

SIGNED by PAUL STEPHEN CARPINTER, Secretary of Commerce
THIRD SCHEDULE
CONDITIONS OF MINING PERMIT 41 003

Work Programme

1. The permit holder shall be permitted to mine aggregate reserves within the permit in a systematic and efficient manner.

2. The permit holder may use the mining methods prescribed below:

   a. Recovery of river terrace gravels on multiple levels using hydraulic excavators.
   b. Recovery of active river gravels using hydraulic excavators.
   c. Transport of recovered gravels using dump trucks.

Annual Work Statement to be Approved by the Secretary

3a. The permit holder shall, before commencing work and within 30 days following the anniversary of the grant of this permit in each year, submit to the Secretary a proposed annual work statement for written approval.

3b. The proposed annual work statement shall detail what quarrying activities are proposed to be undertaken during the forthcoming twelve months.

3c. If no quarrying activities, or pre-development activities only, are proposed during the forthcoming twelve months the permit holder shall give reasons for this in the proposed annual work statement.

3d. Where quarrying activities are proposed, the proposed annual work statement shall be accompanied by a quarry plan and, where applicable, shall confirm the quarrying method to be used, and provide details of the anticipated location, extent and direction of quarrying, the estimated period of quarry operation, an estimate of the proposed production for the coming year, a schedule of production to date, the estimated remaining recoverable reserves and general quarrying activities to be undertaken.

3e. If requested by the Secretary the permit holder shall supply further information to enable a decision on approval to be made.

3f. If requested by the Secretary the permit holder shall provide a modified proposed annual work statement and/or quarry plan for approval.
The permit holder shall comply with the current approved annual work statement and quarry plan (where applicable) which may include modifications to the annual work statement and quarry plan initially approved.

Marking Out

4 If required by the Secretary, the permit holder shall clearly mark the boundaries of the permit or areas defined in the approved work programme of this permit by pegs, coloured tape or other approved means.

Royalties

5a The permit holder shall pay to the Secretary a royalty at the rate of ten cents per tonne of aggregate produced under this permit.

b The rate of royalty outlined in 5a shall apply from the grant of this permit until a period of 12 months following the issue, in terms of section 18 of the Crown Minerals Act 1991, of the first minerals programme concerning aggregate (the minerals programme). After the aforesaid period, the royalty specified in the minerals programme shall apply to the production of minerals under this permit.

c The royalty shall be paid six monthly within thirty days after the first days of January and July in every year.

d All the books, accounts and other records of the permit holder in relation to the permit, for the purposes of this condition, shall be open at all reasonable times to inspection by the Secretary or any other person authorised by him or her.

Expenditure

6 The permit holder shall spend a minimum of $200,000 per annum on wages and operating costs unless otherwise approved in writing by the Secretary.

Provided that the Secretary may review this minimum expenditure level in consultation with the permit holder at intervals no more than three yearly, taking into account the nature of the operations of the permit holder at the time of the review and changes in wage and operation costs from one review period to another.

File Reference CPC 2010/15710

To the Registrar General of Land
for the Land Registration District of
WELLINGTON

This Compensation Certificate is forwarded to you, pursuant to Section 19 of the Public Works Act 1981. Please deposit it in your Registry and arrange a memorial of it to be registered against the title to all land affected by it.

(a) Description of the land affected by the Certificate:

Part lot I Deposited Plan 16503, Part waha-o-te Marangai 1B and 1C Block, and Part Kaingaraki 2 13 Block 51.5669 ha. contained in Computer Freehold Title WN1200/35

(b) Brief particulars of the Agreement: Date: 19/11/2011

(i) Agreement provides for entry onto the owners land for Geotechnical investigations.
(ii) Consideration: ten cents (10c), receipt of which is acknowledged.
(iii) The period of entry is from the date of signing of the agreement until 31 December 2012.

(c) Names and addresses of parties to the agreement (other than the Minister of Lands):

Fletcher Concrete and Infrastructure Limited
State Highway 1
Otaki

(d) (i) Place where Copy of Agreement may be inspected: Land Information New Zealand, National Office, Level 11, Lambton House, 160 Lambton Quay, WELLINGTON
(ii) Hours during which a copy of the Agreement may be inspected: 9 a.m. to 4 p.m. on any day when Government Offices are open to the public.
(iii) Reference by which Agreement may be identified: CPC 2010/15710

Dated at WELLINGTON this 19th day of JANUARY 2011.

PARTIAL SURRENDER OF MINING PERMIT 41 003
GRANTED TO NEW ZEALAND RAILWAYS CORPORATION
AND TRANSFERRED TO WINSTONE AGGREGATES LIMITED

Please find enclosed 3 copies of a partial surrender for the above permit. These documents have been previously rejected and it is believed that the requisition has now been satisfied.

Would you please record the documents, number each copy, retain one copy and return the remaining copies to this office in accordance with Section 89 of the Crown Minerals Act 1991. This section requires that this be done without a fee.

Yours sincerely

ABSTRACT NUMBER B754707

NOTICE UNDER SECTION 43 OF THE LAND TRANSFER ACT 1952

1. NOTICE is hereby given that the undermentioned document is returned to you to satisfy
the requisition hereafter set out. The fees may be forfeited and the document(s) refused
registration pursuant to Section 43 of the Land Transfer Act 1952 unless the requisition
below is satisfied within two months of this notice. Once the requisition is satisfied
please return the documents directly to the Help Desk, that is, do not relodge for
registration. If satisfaction of the requisition cannot be completed in the period allowed,
the document(s) should be withdrawn from registration.

NB: ALL ALTERATIONS REQUIRE AUTHENTICATION

2. REQUISITION:

B754707 - PMIP. I refer to the prior rejection of this rejection in order to clarify the
proprietaryship of the mining permit.
Section 40(1) Crown Minerals Act 1991 entitles a permit holder to surrender the permit. The
permit holder is Winstone Aggregates Limited as to the part A on SO 37737 (CT 11D/1161)
and New Zealand Railways Corporation as to the part marked B on SO 31680
(CT 388/444).
I acknowledge that the Secretary has accepted the surrender. However, the permit holder as
recorded on the surrender excludes reference to the holding of Winstone Aggregates Limited.
(This point was raised under the prior rejection B744203).
Please therefore have indicated the permit holding on the surrender.

I look forward to hearing from you in this matter.

DATED this 22nd day of December One Thousand Nine Hundred and Ninety Nine

Chris Cantillon
for District Land Registrar

Section 40, Crown Minerals Act 1991 — continued

GUIDE TO COMPLETING NOTICE OF SURRENDER OR PARTIAL
SURRENDER OF PERMIT

Specify the number of the permit to which the notice of surrender or partial surrender applies.
Supply the permit holder’s full name, street address, and telephone and fax numbers. The address for service is the address to which all formal correspondence should be sent (this may be the permit holder’s agent’s address). Where the permit holder is a company the registered office of the company should be included.

Specify whether the whole, or only part, of the permit area is being surrendered.

Where only part of the land is being surrendered, please indicate the portion being surrendered by supplying 2 copies of a map or plan clearly indicating the portion being surrendered. You should supply 2 copies of a map grid in all cases, and, if necessary to further define the land being surrendered, also supply 2 copies of a cadastral plan or topographical map indicating the land being surrendered.

The original plus 1 copy of the notice of surrender and 2 copies of the plan are to be forwarded to the Secretary together with the prescribed application fee.

If the space on any part of the form is insufficient to include all details, place them on a separate sheet, state “see attached sheet” in the appropriate space, and attach the sheet to the application.

If this notice is being made by a person acting as agent for the permit holder a written authority to act as agent should be attached.

Partial Surrender
Dear Carla

Contaminated site enquiry, 0 SH1, Otaki, Kapiti Coast

This letter is to inform you that the site located at 0 SH1, Otaki, Legal Description PT LOT 1 DP 16503, appears on the Greater Wellington Regional Council’s Selected Land Use Register as:

Category – Verified History of Hazardous Activity or Industry.

The reason for inclusion in this on the Selected Land Use Register is the site is, or has been, used for the following hazardous activity or industry:

- Storage – Fuel
- Smelting and Refining - Die casters
- Concrete Manufacturer and Bulk Cement Storage

This site has been used for the manufacture of precast concrete. Two underground storage tanks were removed in 2000. No tank pull report is held by Greater Wellington and therefore the extent of contamination, if any, is unknown. A 15,500 litre tank containing Class 3 substances remains on site.

Assignment to this category does not imply the site is contaminated, but merely that there is a potential for hazardous substances to have been used, stored or disposed of on the site, and therefore a potential for site contamination to have occurred. Assignment to this category follows confirmation that past or present site use falls within the HAIL, and flags the site for possible further investigation.

You can find further information on file SN/01/032/02 held at Greater Wellington’s offices at 142 Wakefield Street, Wellington.
We’ve derived the above information from the Greater Wellington’s **Selected Land Use Register** and made it available to you under the Local Government Official Information and Meetings Act 1987 and it reflects Greater Wellington’s current understanding of this site.

The register was established by Greater Wellington to help the regional council perform its functions under the Resource Management Act 1991. It has been compiled in accordance with national Site Classification and Information Management Protocols.

Please be aware that Greater Wellington and its officers, employees and agents accept no liability for any inaccuracy in, or omission from, this information or liability for any loss or damage suffered by any person which may directly or indirectly result from any person acting or refraining from acting on this information. This information has been prepared for the recipient to whom it is addressed and is intended for that recipient’s use only. It is not intended to be relied on by any other party. The provisions of the Privacy Act 1993 bind the recipient of this information.

If you require any further information or clarification about any issues associated with this letter, or contaminated site management in general, don’t hesitate to contact me on 04 830 4026.

Yours sincerely

REPORT

UNDERGROUND TANK REMOVAL

SITE - FIRTH STRESSCRETE
LOCATION - MAIN HIGHWAY, OTAKI
DATE - TUESDAY 12 DECEMBER 2000
CONTRACTOR - MARCONI COMMERCE SYSTEMS (NZ) LIMITED

The job entailed the removal from the ground of two fuel storage tanks which were no longer being used and were getting to the end of their useful life.

The tanks were
1 x 10000 lt Diesel
1 x 10000 lt Petrol

On removal, both were found to be in reasonable condition with no major corrosion problems.
There were no hydrocarbon smells evident in the excavated material.
The environmental monitoring and laboratory checks were to be carried out by Woodward-Clyde (NZ) Ltd., and all necessary soil samples were taken by their Engineer on site.

The tanks were cleaned off and all required signage attached ready for cartage to Mansfield Installations yard in Palmerston North for disposal.
