

WALKING & CYCLING IMPROVEMENTS

A number of exciting walking and cycling improvements are planned to begin construction from late 2017.

These include:

- Shared paths along both sides of Great South Road through the Takanini Interchange
- A new 4.5km off-road 3m wide shared path for pedestrians and cyclists along the western side of the motorway between Takanini Interchange and the Papakura Interchange
- A new pedestrian and cycle overbridge to cross the motorway near the Pahurehure Inlet between Papakura and Karaka.

PROJECT AREA

An artists impression of the new pedestrian and cycle bridge connecting Papakura and Karaka (above and below)

Artist's impression of what a wider area of the shared path could look like
