

TAKITIMU NORTH LINK SUSTAINABILITY POLICY

The Fulton Hogan HEB Takitimu North Link Joint Venture is committed to delivering a sustainable project. To achieve this, we will:

- Adopt a strong partnership approach with Waka Kotahi and Te Paerangi.
- Integrate sustainability considerations into all our project decisions and risk management processes.
- Ensure that all staff are fully aware of our Sustainability Policy, are educated on sustainability and are committed to implementing sustainable practices to maximise the social, economic, environmental, and cultural value through our design and construction expertise.
- Leave a legacy which brings benefits to the communities and environments we interact with; enhancing environmental, social, cultural, and economic outcomes.
- Make partners and suppliers aware of our Sustainability Policy and assist them to adopt sound sustainable practices.
- Review, report, and continually strive to improve our sustainability performance.

To reflect this policy, the following objectives and targets have been set and are outlined in the Sustainability Management Plan:

- > 10% reduction in carbon embodied in materials.
- > 10% reduction in energy (electricity and fuel) used in construction and operation.
- > 10% reduction in water used in construction and operation.
- >25% of waste diverted from landfill.
- > 2.5% of the construction value delivered by SMEs based in the Bay of Plenty region.
- > 2.5% of the construction value delivered by Maori owned businesses.
- Maintain freshwater connectivity.
- Minimise harm to native fauna.

Tony Gallagher
