

# Project update

## Thanks again for your feedback

In August we sent you an overview of the feedback that we had received on the proposed plans for the upgrade of State Highway 3 (SH3) between Vickers Rd and Hobson St.

A consultation report summarising all of the feedback is now available on the NZ Transport Agency website [www.nzta.govt.nz/vickers-to-city](http://www.nzta.govt.nz/vickers-to-city). The report also provides an overview of the final designs for the project, as detailed in this newsletter.

## Next steps

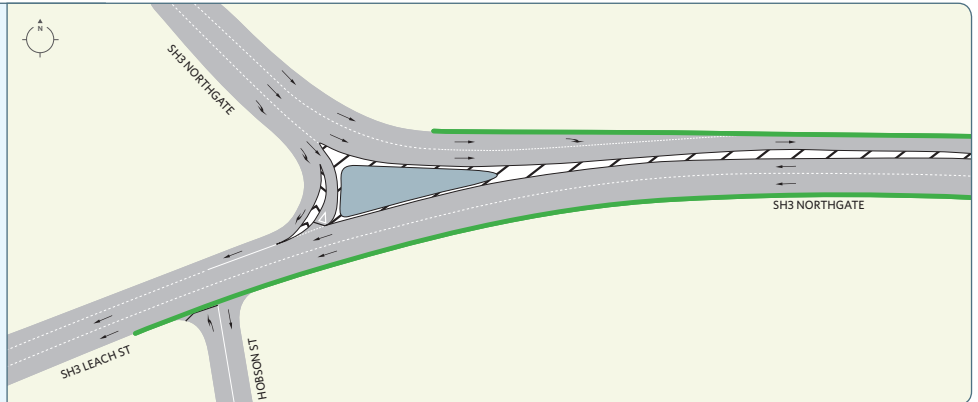

Now that final designs have been developed, relevant requests for approvals to carry out the works will be issued, these include:

- An alteration to a notice of requirement will be lodged with New Plymouth District Council requesting approval to carry out the changes to the road.
- A number of resource consents will be lodged with Taranaki Regional Council requesting approval to construct the project.

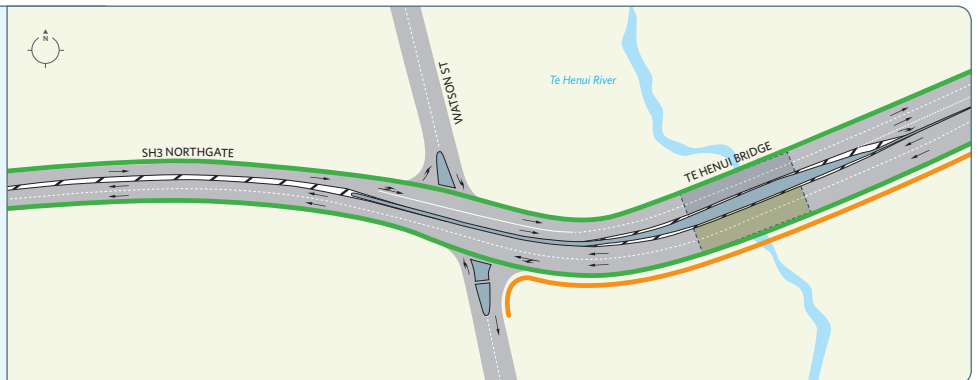

These requests will be processed in accordance with the Resource Management Act and follow statutory processes and timelines.

Pending the approvals above, construction is expected to start in 2014
