

# Section I-19: Register of new TTM equipment approved for use on NZ roading network

7 April 2017

## Register of new TTM equipment approved for use on NZ roading network

The NZ Transport Agency maintains a register of new TTM equipment that has been approved for use on the roading network within New Zealand.

To gain approval for new TTM equipment to be added to this register the supplier must:

- Provide evidence of safe and reliable operation of the TTM equipment
- Confirm that the TTM equipment meets relevant requirements as detailed in the TCD Rule
- Provide a detailed Operator Guide.

Suppliers wishing to have their product added to the register should contact:

The Senior Traffic and Safety Engineer (COPTTM)

DDI 04 894 6355

M 021 533 503
