Road Safety Barrier Systems Installation and Maintenance Inspections Workshops 2014

WHY YOU SHOULD ATTEND
This one and a half day workshop focuses on the information and practical skills required to inspect barrier installations and carry out maintenance inspections of road safety barrier systems. This workshop is necessary for those who certify installations for fitness for purpose. It is a prerequisite for the Road Safety Barrier Systems Design Workshop.

NZTA and Local Authority Staff, Consultants and Contractors responsible for road safety barrier design, installation certification, audits, or maintenance should attend and complete the practical assessment.

PROGRAMME

• Road & roadside safety overview.
• Performance principles.
• Hardware review.
• Design overview.
• Inspections.

BARRIER INSTALLATION AND MAINTENANCE INSPECTIONS ASSESSMENT (BIMIA)
In future consultants and contractors carrying out design and/or supervision work involving road safety barriers will need to have attended this practical workshop and demonstrated their proficiency through completion of a practical assessment.

A list of those who have achieved this qualification is now on the NZTA Website.

WORKSHOP VENUE / DATE
The 1½ day course is held over a 2 or 3 day period. All attend the initial half day theory session and thereafter a one day practical session.
