Objective of the Rule

Land Transport Rule: Steering Systems Amendment 2016 (the amendment Rule) amends *Land Transport Rule: Steering Systems 2001* (the Steering Systems Rule). The Steering Systems Rule covers the design, construction, and maintenance of steering systems in motor vehicles.

The objectives of the amendment Rule are—

- to update a reference to the *Immigration Act 1987* with a reference to the *Immigration Act 2009*;
- to correct an error.

Extent of consultation

For the purposes of consultation, amendments proposed to the Steering Systems Rule and 14 other Land Transport Rules were combined into a single Rule, *Land Transport Rule: Omnibus Amendment 2016* (the Omnibus Amendment Rule). Following consultation, the provisions in the Omnibus Amendment Rule were split into separate amendment Rules.

The NZ Transport Agency sent details of the amendment proposals by letter or email to approximately 3170 groups and individuals who had registered an interest in the Rules to be amended. The Omnibus Amendment Rule was made available through the NZ Transport Agency's Contact Centre and, together with Questions and Answers, was also available on the NZ Transport Agency's website. The availability of the amendment proposals for comment was publicised in the daily newspapers in Auckland, Hamilton, Wellington, Christchurch and Dunedin and in the *New Zealand Gazette*.

The NZ Transport Agency received 35 submissions on the Omnibus Amendment Rule, of which 8 commented on the proposed amendments to the Steering Systems Rule.

The submissions received were taken into account in finalising the draft Rule following which it was submitted to the Associate Minister of Transport for signing.
